**Sunday, April 24<sup>th</sup>  
through  
Friday, May 6<sup>th</sup>**

### **Enhanced Academic Support Services for Students**

In an effort to provide students with additional support during the busy and often stressful final weeks of the semester, Lewis University offers *Super Study*, which will take place **April 24<sup>th</sup> through May 6<sup>th</sup>**. The goal of this program is to provide Lewis University students with extended service hours and expanded academic support services during this important time of the year.

While students study hard throughout the semester, *Super Study* is offered at the conclusion of the semester to assist students as they finalize important projects – such as research and papers, refine group presentations, complete capstone assignments, and continue to study for final exams – all during the last two weeks of the semester.

This guide provides information about both in person and virtual expanded hours and services as well as information about dining service hours, a listing of available study spaces, computer lab schedules, and more. We hope that these enhanced services will contribute to a less stressful experience for students during the final two weeks of the semester.

---

**Super Study** is coordinated by the *Center for Academic Success and Enrichment, (CASE) and was developed in the spirit of Association by the Lewis University Library, the Office of Technology, the Writing Center, the Student Recreation and Fitness Center, Student Services, Health & Counseling Services, University Ministry and Sodexo.*

### **Wireless Network Support**

Lewis University has a campus-wide wireless network called LewisWifi *or* MyLewis, dependent on your location. Wireless signal strength varies from different locations across campus. Outdoor wi-fi access is now available in Parking Lots L and W.

The wireless network, requires an Access Code which can be found on the Resources tab of MyLewis Portal.

Note: An ethernet connection is recommended for taking exams and web conferencing.

For wireless network assistance, please contact the Service Desk.
